## **Projects**

2016 'Star Craftsman product development project' – Korea Craft and Design Foundation (KCDF)

The main motif of my work is "functional tableware for myself, my friends and family". I am motivated by the pleasant feelings and long-lasting memories of using the final products or presenting them as gifts to the dearest people around me. It is also fulfilling to refine any imperfections I find while actually using them, and achieve the ideal forms. My work is therefore derived from within myself, but moves on to serve others.
